

**TERZIDIS®
PRINT**

COMPANY PROFILE · 2026

Right the first time. Every time.

Offset printing for sectors with strict specifications. Pharmaceutical print, food packaging and commercial print, with a documented check at every stage.

THE COMPANY

One standard, from day one: Right the first time.

Offset printing based in Larissa, Greece, in continuous operation since 1978. A 1,000 m² production site of our own, a four-colour Heidelberg Speedmaster 72 × 102 cm with coating unit and two-sided printing in one pass, computer-to-plate (CtP) prepress and a proprietary order and production platform. Customers in Greece and across the European Union.

1978

Continuous operation in Larissa

ISO 9001:2015

Quality system certified since 2003

72 × 102 cm

Maximum sheet size

40–400 g/m²

From lightweight papers to packaging boards

**One
responsibility**

From file to delivery

Greece & EU

Deliveries with lot documentation

Before printing

Every order is verified through the platform: file version, artwork and quantity are confirmed before printing. Production starts only after the customer approves the electronic proof. All procedures are documented and recorded electronically.

After printing

Online order tracking through the customer platform. A certificate of conformity with the paper and ink lots recorded. Retained samples from every order, available on request.

WHAT WE PRINT

Three sectors. One standard.

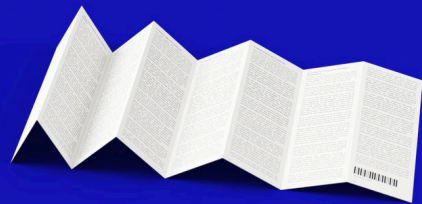

Three production sectors, with the same control procedures and the same materials: European raw materials, and food-grade inks and coatings across all production.

01

High-specification print

When a mistake is not an option.

- Instructions for use and inserts from 40 g/m², with version verification
- Package inserts and packaging print for regulated sectors
- Technical and compliance print

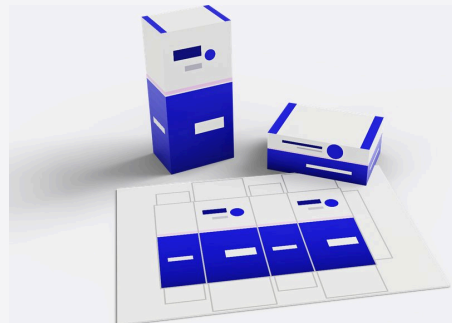

02

Food packaging

In contact with food. Food-grade only.

- Printed packaging paper and board, with the True-Up™ method
- Folding boxes in board up to 400 g/m²
- Placemats and serving papers

03

Commercial print

Pharmaceutical-grade control.

- Catalogues, magazines and books
- Brochures, leaflets and flyers
- Folders and corporate stationery

SPECIFICATIONS & OPTIONS

Choose what you need. We take care of the rest.

- Food - grade inks & coatings
- European raw materials
- Lot traceability
- Certificate of conformity

BEFORE YOU ORDER

Free PDF check.

Upload your file at terzidis.gr/en/elegchos-pdf and receive a check report on dimensions, bleed, colour, resolution and fonts, before the quotation.

QUALITY & RESPONSIBILITY

Documented at every stage.

Our quality system is designed for customers who audit their suppliers. We welcome customer audits and keep a complete record for every order.

ISO 9001:2015

Certified quality management since 2003, with every procedure recorded electronically.

Food-grade only

Inks and coatings suitable for food packaging, across all production.

Full traceability

European raw materials, with lot traceability for every paper and ink.

Certificate of conformity

Accompanies every order and confirms the agreed specification.

Retained samples

Kept from every production run for later verification.

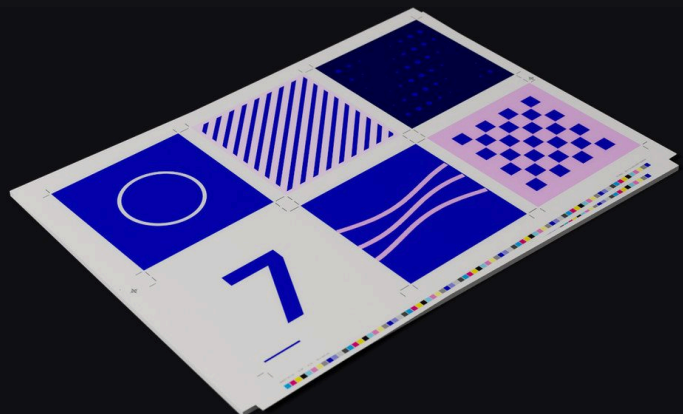

European framework

Procedures aligned with the EU regulations on packaging (PPWR) and deforestation (EUDR).

A TERZIDIS PRINT INNOVATION

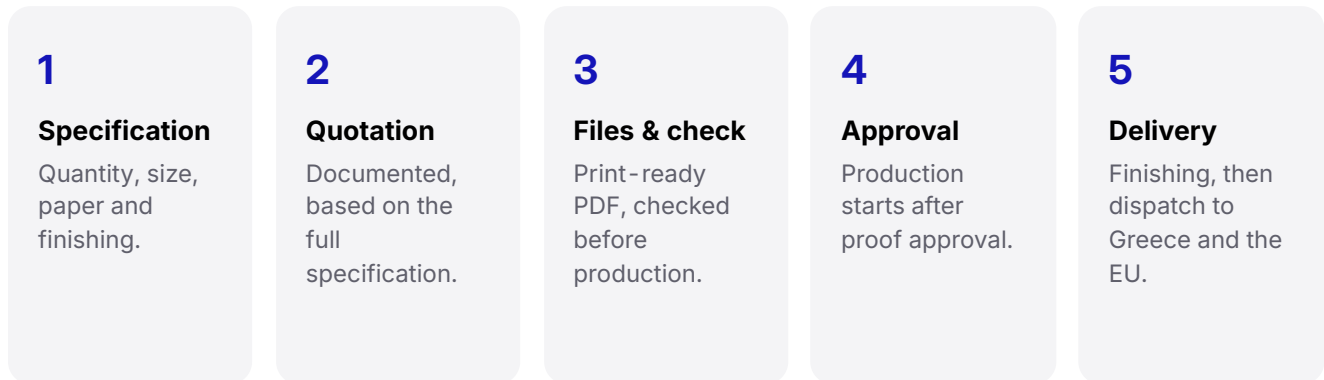

True-Up™

Our own gang-run method: many designs on one sheet, each with faithful colour. Less make-ready, less waste and a lower cost per design, with no compromise on fidelity.

HOW TO ORDER

From your file to the finished product.

Files are sent by e-mail; larger files through a file-transfer link. File preparation guidelines are available at terzidis.gr. We do not undertake artwork design.

WHAT YOUR REQUEST SHOULD INCLUDE

- Type of print and its use
- Finished size and, for folded items, flat size
- Paper or board, if already specified
- Coating and special finishes
- Quantity, or several for comparison
- Number of pages and binding method
- Colours: CMYK, Pantone or both
- Delivery address and requested delivery date
